Breakdown of property’s energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property’s age and type. They are used for features the assessor could not inspect.

Primary energy use

The primary energy use for this property per year is 199 kilowatt hours per square metre (kWh/m2).

How this affects your energy bills

An average household would need to spend **£1,746 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £282 per year** if you complete the suggested steps for improving this property’s energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 14,015 kWh per year for heating
- 3,643 kWh per year for hot water

Impact on the environment

This property’s environmental impact rating is D. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

Carbon emissions

An average household produces 6 tonnes of CO2

This property produces	4.6 tonnes of CO2
This property’s potential production	2.9 tonnes of CO2

You could improve this property’s CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Internal or external wall insulation	£4,000 - £14,000	£152
2. Increase hot water cylinder insulation	£15 - £30	£33
3. Solar water heating	£4,000 - £6,000	£97
4. Solar photovoltaic panels	£3,500 - £5,500	£491

Help paying for energy improvements
